

Power Transformers

Optimum power distribution
ranging up to 600 MVA

**POWER
EQUIPMENT**

JST Power Equipment's power transformers are engineered to meet the needs of the North American market.

Our solution is designed to handle low to medium voltage ranges and power levels up to 600 MVA and beyond, with the capacity to operate under harsh industrial conditions and the flexibility to adapt to specific technical requirements. They provide smooth operation of industrial equipment with optimized performance and reduced operational costs.

The compact size allows for easy integration into various systems and our reputation for robust construction ensures durability and minimal maintenance.

- Compact design for optimal space savings
- Robust construction for optimal durability
- Minimal maintenance
- Flexible options to meet various technical requirements

APPLICATIONS

- Wind Power
- Solar Power
- Transmission & Distribution Substations
- Power Plants (Unit Auxiliary Transformers)
- Industrial Substations

KEY SPECIFICATIONS

- Power ratings: 5 MVA – 600 MVA (max with fans)
- Primary voltage: Up to 500 kV (1800 kV BIL)
- Dielectric coolant: Mineral oil/natural ester/synthetic ester
- Maximum manufacturing weight: 100 tons
- Built to IEEE, IEC and ANSI standards
- No load and load tap changer available
- Visit our website for current leadtimes

About Us

At JST Power Equipment, we pride ourselves on delivering world-class transformer and electrical equipment solutions. The key to our success is the ability to provide quality products with speed and precision through the dedication of our talented team.

For over 30 years, we've evolved to become an innovator in the electrical industry and we work hard to design and build our products to the highest quality standards. And as we look toward the future, we're continuously investing in our technology, facilities and people to engineer the best solutions in the industry and create more value for our customers.

At JST Power we're more than a manufacturer, we're transforming the future of power.

Where you can find us

North America

- Orlando, FL USA
- Wytheville, VA USA
- Nogales, Mexico

Europe

- Frankfurt, Germany
- Lubliniec, Poland

Asia

- Guilin, China
- Haikou, China
- Shanghai, China
- Wuhan, China
- Yangzhou, China
- Surabaya, Indonesia
- Klang, Malaysia
